Take the Bite out of Fundraising

KatzAzz Jerky was founded in 2018 in Red Deer Alberta by us, Dale and Lee (Biff and Buck). We are both Central Alberta raised and have strong ties to minor and junior sports programs. We are grandparents to young athletes and have a deep understanding of the costs associated to enrolling our kids in sports. As costs increase, it has become more challenging to fund the activities for our kids. Fundraising is more important than ever. Raising donations is not getting easier and community members are being asked to donate more and more often. Our KatzAzz Jerky is the easiest product to sell, and it offers great value to your donation base, and is probably the most profitable product that your group has ever had.

We do not recommend Pre-sell (taking orders). Our inventory changes daily and it is best to check on flavour availability, then purchase the required supply. Take more that you need because returns are no problem!
