Take the Bite out of Fundraising

KatzAzz Jerky was added to the Katz Azz Products lineup in 2018. As parents and grand parents ourselves, we have strong ties to minor and junior sports programs. As costs increase, it has become more challenging for parents to fund the activities for our kids. Fundraising is more important than ever. Raising donations is not getting easier and community members are being asked to donate more and more often. Our KatzAzz Jerky is the easiest product to sell, and it offers great value to your donation base, and is probably the most profitable product that your group has ever had.

We do not recommend Pre-sell (taking orders). Our inventory changes daily and it is best to check on flavour availability, then purchase the required supply.
